

GRANITE RIDGE

Metal Shingles are designed to outlast and outperform traditional roofing materials.

Precision engineered from 26-gauge aluminum-zinc alloy and triple-coat finished, they're one of the strongest metal shingles available in the industry.

The interlocking design tightens on all four sides giving them a 120MPH wind warranty against hurricane force winds. Granite Ridge is also impact resistant with a 2.5" hail stone warranty and will stand up considerably longer against traditional materials and contain embers in the event of a fire.

GRANITE RIDGE will enhance your home's visual appeal for years to come, are backed by a 50-year lifetime limited transferable warranty and they won't have to be replaced... ever!

Important Note:

Colours shown may vary from actual colours due to printing process. We recommend you ask your Vicwest distributor for actual samples before making a colour selection.

Onyx

Desert Sand

Thunderstorm

Heather Blend

Ember

Forest Green

Stronger, safer, more secure and surprisingly affordable, investing in a metal roof is a wise choice.

The Vicwest Commitment

For more than 85 years, we've understood that people choose Vicwest not only because we build superior products, but because we stand behind them. Every Vicwest product we sell is backed by the best warranty in the business so you can rest assured that the roof you choose today, will protect your home for years to come. At Vicwest, we're committed to continually improving upon and developing new building products to protect the places where we live, work and play. At Vicwest, we're *building for tomorrow*.

We'd Love to Hear From You

GRANITE RIDGE

THE RESIDENTIAL METAL ROOFING COLLECTION BY VICWEST

Granite Ridge is a beautiful stone-coated metal shingle that doesn't look like metal, so it suits every home style and blends seamlessly into any neighbourhood. With all of the superior protection values metal provides and backed by a 50-year transferable warranty, Granite Ridge is a roof investment that looks as good as it performs! With the appearance of traditional shingles, your neighbours won't know it's metal, they'll just think it's beautiful. A classic Granite Ridge Metal Roof offers superior protection and beauty... a winning combination!

WITHSTANDS:

- WIND DRIVEN RAIN
- IMPACT
- HAIL DAMAGE
- FOOT TRAFFIC
- FIRE
- HIGH WINDS

Undaunted by nature, **Granite Ridge** can withstand hurricanes, earthquakes, tornadoes, fire, hail and blizzards and remain looking like new.

Why Metal is worth the investment

Ordinary roofing materials have shorter life spans and will need to be replaced regularly, especially in areas that see an influx of hot and cold temperatures coupled with high weather activity. With constantly increasing material and labour costs, this could result in significant expense over the life of your home. A roof purchase isn't something you plan on, so why do it twice? With warranties up to 50 years, a Vicwest metal roof will save you money and future financial worry since you'll never have to re-roof again! In addition, the enhanced curb appeal and durability it provides can help increase resale value should you decide to sell your home.
